Part III Rate Filing Documentation and Actuarial Memorandum
- 2. SERFF Rate Data Template**
- 3. Covered CA Forms**
Supplement Rate Review Template

Actuarial Memorandum and Certification

Introduction

Submitted for your review are Health Net's proposed premium rates for ten EPO and five PPO plan designs. Five of the EPO plans are to be offered through Covered California, all other plans are to be offered off-Exchange. All rates are guaranteed for a 12-month period.

The On-Exchange and Off-Exchange EPO rates within are our proposed EPO rates to Covered CA and the CDI and we do not expect them to change.

The Off-Exchange PPO rates (there is no Exchange PPO plans) within are developed on a preliminary basis and are subject to change based on our continuing negotiations with the CDI.

As it stands, Health Net is expected to have an after-tax profit loss of -15% on risk adjusted premium due to losses on PPO. PPO premiums are inadequate to cover the anti-selective spiral seen on the PPO product off-exchange. We do not consider the premiums adequate to cover the risk at this time.

Proposed Rate Increase(s)

This rate filing is for all Individuals on these plans, both those sold onto these plans and those renewing from the 2016 version of these plans. The rates are guaranteed until December 31, 2017.

The projected claims experience was developed using calendar year non-grandfathered 2015 experience.

The overall renewal of 23.0% is the weighted average of the PPO and EPO plan increases, weighted on projected premium and projected 2017 members.

Note the rate increase of 23.0% assumes that we are operating at an after-tax profit loss on risk adjusted premium of -15.0%. This results in a pre-tax profit loss of -23.4%. We have identified the loss as a consequence of benefit design vulnerabilities on our Off-Exchange PPO product and the mitigation of loss will require cooperation from the CDI which is still subject to much discussion.

Impact of Rate Factor Changes

Plan premiums are calculated as Calibrated Plan Specific Base Rate x Area Factor x Age Factor (subject to the three child limit). The age factors are Federally mandated, and the area factors are included below.

Impact of Benefit Plan Changes

Plans are the 2017 standard plans designed by Covered CA. We relied on their AV calculations as a component of plan pricing.

Experience Period Premium and Claims

Experience Period:

January 1, 2015 – December 31, 2015.

Paid Through Date:

January 31, 2016.

Premiums (net of MLR Rebate) in Experience Period:

Premiums are actual member premiums collected during the experience period. As MLR rebates are not applicable during the experience period, rebates were not included.

Allowed and Incurred Claims Incurred During the Experience Period:

Incurred claims were pulled directly from Health Net's internal claims system.

	Experience:	Total	PMPM
A	Experience Period Member Months	440,430	36,703
B	Expected Member Months in the Rating Period	217,003	18,084
C	Experience Period Premium	\$189,018,536	\$429.17
D	System Experience Period Completed Incurred Claims	\$473,970,047	\$1,076.15
E	Off System Adjustments to Claims (Pediatric Vision+Dental)	\$2,096,664	\$4.76
F	Experience Period Completed Incurred Claims	\$476,066,711	\$1,080.91

- Incurred but not paid claims are based on historical claims payment patterns.
- The projected claims experience was developed using calendar year 2015 non-grandfathered experience.
- An off-system adjustment of \$4.76 was made to account for pediatric dental and vision. This benefit is currently not included in our internal systems, thus claims have to be adjusted for it. It is computed as the per child per month cap rate multiplied by the percentage of children age 0-18 on plans that include pediatric dental or vision coverage during the experience period, CY 2015.

	Rate per child per month	% of plans with coverage	% of children age 0-18	Experience Adjustment
Pediatric Dental	\$20.28	100.0%	21.8%	\$4.41
Pediatric Vision	\$1.60	100.0%	21.8%	\$0.35
Total Adjustment				\$4.76

Benefit Categories

Benefit categories are determined using a combination of diagnostic, procedural and other codes pulled from claims data. Similar to how claims are mapped in Milliman's Health Care Cost Guidelines, an industry wide standard. Health Net's algorithm is developed and maintained by our Health is internally developed by our Health Care Solutions department.

Projection Factors

1. Eligibility requirements and exclusions conform to ACA.
2. The Index Rate as of January 1, 2017 was developed based on CY 2015 costs for Individual non-grandfathered PPO and EPO business and adjusted to reflect anticipated Individual demographics for 2017. These costs were adjusted based on the following changes not reflected in CY 2015 experience.

	Claims development:	Total	PMPM
H	Experience Incurred Claims (D)	\$473,970,047	\$1,080.91
I	Claims without OON Substance Abuse Claims		\$619.44
J	OON Substance Abuse Cost Adjustment ---80% reduction	0.658	\$711.73
K	Selection Exposure to Substance Abuse	1.053	\$749.27
L	Morbidity - Reweighting Claims to Current	1.207	\$903.99
	Morbidity - Reweighting Claims to Current (adjustment to EPO for size)	0.965	\$872.20
M	Proposal B Increase OON Cost Share Amounts - Deductible	0.994	\$867.00
N	Proposal B Increase OON Cost Share Amounts - MOOP	1.000	\$866.60
	Proposal E: Remove First Health Travel Benefit for IFP and remove all out of state OON benefits/ coverage, with the exception of ER for IFP	0.992	\$859.48
	Proposal F: Exclude OON non-certified services (remove pre-cert penalties)	1.000	\$859.48
	Proposal G: Limit as Many Services as Possible to INN only (Expand Non-Coverage of Certain Services OON)	0.999	\$858.77
	Increase Certification Requirements for Services/ PA Required for Payment	1.000	\$858.77
	Other 2017 Initiatives	1.000	\$858.77
O	Morbidity adjustment - Healthy lives entering the market (in Risk Adjustment)	1.000	\$858.77
P	Morbidity adjustment - Guaranteed Issue for PPO	1.000	\$858.77
Q	CSR Receivables	0.997	\$856.53
R	Release of Pent-Up Demand	1.000	\$856.53
S	2016 Carryover Initiatives	0.990	\$848.32
U	Age Adjustment (Relative to Current Metal/Region Mix)	0.956	\$810.86
V	Area Adjustment	1.000	\$811.08
W	Plan Adjustment	1.007	\$817.12
X	Benefit Adjustments	1.000	\$817.12
Y	Plan benefits in addition to EHB	1.000	\$817.12
Z	Claims Adjustment: Hepatitis C	0.997	\$814.74
AA	Adjustment for Grace Period	1.000	\$814.74
AB	Pricing Trend	7.85%	7.85%
AC	Months of Trend	24	24
AD	Trend Factor	1.163	1.163
AE	Projected Incurred Claims	\$232,329,839	\$947.77

(I) Claims without OON Substance Abuse Claims

This is 2015 claims cost without Out-of-Network substance abuse claims. Of the Out-of-Network substance abuse claims, roughly

-
- (1) 20% is Inpatient Facility
 - (2) 50% is Outpatient Facility
 - (3) 30% is Toxicology Screens

We present this number in order to demonstrate the severity of Out-of-Network Substance Abuse claims on the single risk pool. Note the On-Exchange EPO product does not have Substance Abuse issues as it does not have OON benefits.

(J) OON Substance Abuse Cost Adjustment ----80% reduction

In CY 2015, Out-of-Network substance abuse claims consumed 42.7% of the dollars spend for this block of business. Prior to 2016, Out of network substance abuse claims were paid as a % of billed, because a Medicare Allowable rate was not available for this claim category. For example, toxicology was paid based upon CPT. There was no Medicare fee schedule amount. We now crosswalk services to G-codes because Medicare has allowed amounts at the G-code level.

We have fixed this coding pitfall, which will allow us to establish a reasonable reimbursement rate by doing the following:

Modify Medicare Allowed Amount (“MAA”):

- Medicare Percentage for Professional to MAA (75% remains as-is for group plans; change from 75% to 100% for IFP PPO only)
- Medicare Percentage for Facility Services to 150% (from 190%)
- "Medicare Equivalent" language included
- MAA default reimbursement is now 50% of billed charges (remove 75% billed charges as default)

This drop in reimbursement rate is expected to reduce OON substance abuse claims by 80%.

OON substance abuse claims make up 42.7% of claims for 2015. As we expect a reduction in costs of 80%, the adjustment is calculated as $0.658 = 1 - (42.7\% \times 0.8)$.

(K) Selection exposure to substance abuse

In CY 2015, we had an average of 660 (or 1.8%) substance abuse members during the year, culminating in a high of 1,149 (or 6.4%) members at December 2015. The number of claimants that incur OON substance abuse claims is expected to drop from that high of 1,149 as of December 2015 to an average of 528 (or 2.6%) of members.

While 2017 represents a reduction of 20% of CY 2015 substance abuse members, the portion of substance abuse members as a % of the total block is 2.6%, whereas the experience period had 1.8% of members as healthier members are more likely to lapse, increasing the impact of substance abuse members on the single risk pool’s projected claims. We have assessed this impact to add increase claims by 5.3%.

(L) Morbidity – Reweighting Claims to Current

This adjustment ensures that claims cost reflects the actual ACA population that will be impacted by the proposed rates. It is calculated as the claims cost of the renewing ACA market weighted by the expected member months in the rating period, rather than the experience member months.

The expected member months in the rating period are our projections. We take current membership and forecast the future 2017 distribution by product. This forecast is based on our current competitive position and expected increase. All claims/retention for the single risk pool after (L) are weighted by weighted by expected membership in the rating period.

		PPO	EPO	EPO
		Off-Exchange	Exchange	Off-Exchange
A	Experience Period Member Months	400,270	37,615	2,545
B	Expected Member Months in the Rating Period	187,133	35,333	22,667

(M) Proposals to CDI for benefit changes to PPO

These are the proposals we presented to the CDI to change PPO OON benefits that have not been withdrawn and thus may be implementable, dependent on final outcomes with the regulatory body.

Proposal B Increase OON Cost Share Amounts – Deductible and MOOP

For PPO we propose to make the following benefit changes to Out-of-Network deductibles and Maximum Out of Pocket:

OON Deductibles:

Platinum - \$2,000/\$4,000 (as we have already updated)

Gold - \$3,000/\$6,000 (as we have already updated)

Silver - No change

Bronze - Reduce from \$13,600/\$27,200 to 2x in-network at \$12,600/\$25,200

Minimum Coverage - No change

OON OOPMs (change from unlimited to 2x in-network):

Platinum - \$10,000/\$20,000

Gold - \$13,500/\$27,000

Silver - \$13,600/\$27,200

Bronze - \$13,600/\$27,200

Minimum Coverage - \$14,300/\$28,600

The changes in deductible impact the single risk pool by -0.6%, though they vary by metal tier.

The changes in MOOP have a nonmaterial impact to the single risk pool, though there are 0%-0.2% reductions in claims by PPO metal tier.

Note, this impacts only PPO plans, our EPO Plans (which are On-Exchange) are not impacted as they have no Out-of-Network benefits. Services such as Emergency Care are not subject to the change as they are always paid at the In-Network cost share.

Proposal E: Remove First Health Travel Benefit for IFP and remove all out of state OON benefits/ coverage, with the exception of ER for IFP

We expect that the changes to these benefit categories reduces the single risk pool claims by 0.8%.

Proposal F: Exclude OON non-certified services (remove pre-cert penalties)

We expect that this proposal will not have a material impact to projected 2017 claims but such a benefit change is good policy.

Proposal G: Limit as Many Services as Possible to INN only (Expand Non-Coverage of Certain Services OON)

We expect that this proposal will have a -0.1% impact to projected 2017 claims.

Increase Certification Requirements for Services/ PA Required for Payment

We expect that this proposal will not have a material impact to projected 2017 claims but such a benefit change is good policy.

Other 2017 Initiatives

Note the rate increase of 23.0% assumes that there are no further benefit changes we can implement for 2017 plans.

(O) Morbidity adjustment - Healthy lives entering the market (in Risk Adjustment)

We don't expect healthy lives entering the risk pool to impact our population materially.

(P) Morbidity adjustment - Guaranteed Issue for PPO

We do not adjust for guaranteed issue for PPO.

(Q) CSR Receivables

We are in the Exchange in CY 2015 and are expected to collect a receivable of \$986,980 from Exchange EPO plans. Divided by the CY 2015 member months for the single risk pool, we can reduce claims by \$2.24 PMPM. This estimate is consistent with the CSR Receivables booked with CMS in the June 3, 2016 reconciliation.

(R) Release of Pent-Up Demand

We believe that Pent-up demand has been fully realized, therefore the factor is 1.0.

(S) 2016 Carryover Initiatives

This reflects the expected reduction to health care costs as a result of our cost containment/quality improvement initiatives. We expect these initiatives, if 100% realized, will reduce costs by a factor of 0.990. These 2016 initiatives are separate from the 2017 initiatives presented in (M).

(U) Age Adjustment (Relative to Current Metal/Region Mix)

We must adjust CY 2015 claims to reflect the average age factor of the population in the rating period.

- A. We pulled the census of every non-grandfathered member in California Individual PPO business in CY 2015. The average age factor was calculated based on this population and using the approved ACA age factors. The calculated value is 1.176.
- B. We pulled the census of every non-grandfathered member in California Individual PPO as of January 2016. The average age factor was calculated based on this population and using the approved ACA age factors. The calculated value is 1.120.

Hence the Age Adjustment (B) / (A) = 1.120 / 1.176 = 0.956

(V) Area Adjustment

We must adjust CY 2015 claims to reflect the average area factor of the population in the rating period.

- A. We pulled the census of every non-grandfathered member in California Individual PPO business in CY 2015. The average area factor was calculated based on this population and using the approved 2016 ACA area factors. The calculated value is 1.130.
- B. We pulled the census of every non-grandfathered member in California Individual PPO as of January 2016. The average area factor was calculated based on this population and using the approved 2016 ACA area factors. The calculated value is 1.130.
Hence the Area Adjustment $(B) / (A) = 1.130 / 1.130 = 1.000$

(W) Plan Adjustment

We must adjust CY 2015 claims to reflect the expected benefits to be paid in the rating period.

- A. The experience period has an average plan factor of 0.696, which is calculated as the average actuarial value of our California Individual non-grandfathered PPO business in 2015 using the standalone AV calculator.
- B. We expect the average plan factor for 2017 California Individual PPO business to be 0.702. This valuation was calculated as the average actuarial value of the proposed 2017 plans, using the standalone AV calculator and based on our January 2016 Individual PPO membership distribution. The calculated value is 0.702. The AVs were determined based on the standalone AV calculator which is a paid to allowed calculator.

Hence the Plan Adjustment is $(B) / (A) = 0.702 / 0.696 = 1.007$

(X) Benefit Adjustments

No benefit adjustments were made.

(Y) Plan benefits in addition to EHB

There are no adjustments for plan benefits in addition to EHB.

(Z) Claims Adjustment: Hepatitis C

Because the morbidity of the population is ready quite high, we expect 2017 to be lower than the 2015 experience trended forward to 2017 by \$2.38 PMPM. The cost impact of these drugs to the 2017 book of business has been calculated as reducing claims cost by 0.3%.

(AA) Adjustment for Grace Period

Claims are not adjusted for the impact of the 90 Day Grace Period to pay plan premiums the majority of our business in this pool is Off-Exchange.

(AB) Pricing Trend

Trends are built from a “first principles” approach, calculating the expected unit cost change by hospital and medical group which is then weighted using the historic volume associated with each provider. Variables of trend such as anti-selection, underwriting wear-off, demographic changes, margin for trend, technology/intensity not included. There is no trend margin or fluctuation factor in trend development. Cost trends are supported by known and forecasted contractual increases based on our expectations of contracts in 2017.

The average medical and pharmacy trend is 7.85%. The components of trend are detailed below. All components are based on our Commercial book of business.

Benefit Category	Annualized Trend	
	Cost	Util
Inpatient Hospital	106.1%	101.7%
Outpatient Hospital	106.0%	101.7%
Professional	105.5%	101.7%
Other Medical	104.1%	101.7%
Capitation	100.0%	100.0%
Prescription Drug	111.0%	100.0%

Medical Unit Cost Trend is the increase in health care costs due to medical inflation. It is estimated by reviewing current and anticipated future provider reimbursement arrangements. Note deductible leveraging is not a component of trend, instead it is reflected in the change in AV from current year to the rating period as implicit in the change in the AV calculator.

Medical Utilization Trend is the increase in health care costs due to changes in service. It includes evolutionary changes in medical care practices, increase in the supply of services, and changes in the overall health and/or attitude of the population.

The utilization of services has been very volatile. We assume for the rating period that utilization is 1.7%. The utilization estimates used in the rate development were based on actuarial judgment.

Rx Trend is the increase in health care costs due to prescription drug inflation. We use 11.0% in rating which is 1% lower than internal forecast on pharmacy trends.

Risk Adjustment and Reinsurance

	Risk Adjustment/Reinsurance Recoveries	Total	PMPM
AF	Reinsurance Recoveries	1.000	\$0.00
AG	Risk Adjustment Projection based on Edge Server		(\$157.51)
AH	Projected Incurred Claims (w/ ACA Adjustments)	\$193,718,621	\$790.26

(AF) Reinsurance Recoveries

The reinsurance program is no longer in effect for plans in 2017 and beyond.

(AG) Risk Adjustment Projection based on Edge Server

Edge Server results for CY 2015 indicated that we were higher risk than the market, hence would be a net receiver in risk adjustment.

We arrived at this estimate by taking the CY 2015 risk adjustment from Edge Server, trending it forward to 2017 at 5% a year and weighting by the rating period population mix, rather than the 2015 population mix.

Non-Benefit Expenses and Profit & Risk

Total Premium Retention is the amount to be retained by the insurer to cover all of the insurer's non-claim costs including expected profit. Note we display profit on an after-tax basis per the methodology established by the Unified Rate Review template which specifies that taxes and fees should include income tax and profit should be reported on an after tax basis.

	Admin Development	Total	PMPM	% of Risk Adj Revenue	% of Revenue
AI	Administrative Expenses	\$8,542,709	\$34.85	4.3%	5.4%
AJ	Commissions	\$1,913,487	\$7.81	1.0%	1.2%
AK	Broker Bonus	\$0	\$0.00	0.0%	0.0%
AL	Total Administrative Costs	\$10,456,195	\$42.66	5.3%	6.6%

	Taxes and Fees	Total	PMPM	% of Risk Adj Revenue	% of Revenue
AM	Premium tax	\$0	\$0.00	0.0%	0.0%
AN	Risk Adjustment Fee	\$36,770	\$0.15	0.0%	0.0%
AO	Reinsurer's Fee	\$0	\$0.00	0.0%	0.0%
AP	Exchange Fee	\$916,116	\$3.74	0.5%	0.6%
AQ	Insurer's Fee	\$0	\$0.00	0.0%	0.0%
AR	PCORI	\$44,328	\$0.18	0.0%	0.0%
AS	Income Tax	(\$16,750,702)	(\$68.33)	-8.5%	-10.5%
AS	Total Taxes and Fees	(\$15,753,488)	(\$64.26)	-8.0%	-9.9%

	Premium development	Total	PMPM	% of Risk Adj Revenue	% of Revenue
AU	Experience Period Premium (C)		\$429.17		
AV	Adjustments for Approved Rate Changes		\$97.62		
AW	Adjusted Earned Premium		\$526.78		

	Proposed Base Rate Development:	Total	PMPM	% of Risk Adj Revenue	% of Revenue
AX	Projected Incurred Claims (w/ ACA Adjustments) (AH)	\$193,718,621	\$790.26	\$790.26	
AY	Total Administrative Costs	\$10,456,195	\$42.66	\$42.66	
AZ	Total Taxes and Fees	(\$15,753,488)	(\$64.26)		
BA	After-tax Profit/Margin	(\$29,527,069)	(\$120.45)	-15.0%	-18.6%
BB	Required Revenue	\$158,894,259	\$648.20		
BC	Risk Adjusted Revenue		\$805.71		
BD	Requested Base Rate		\$648.20		
BE	Requested Renewal Increase		23.0%		
BF	Target Medical Loss Ratio				121.9%

(AI) Administrative Expenses

Projected operating expense is \$34.85.

(AJ) Commissions

Broker commissions are 1.2% of premium. This is based on our agreements with the brokers and is calculated using current membership distribution by product, metal tier and Exchange status.

(AK) Broker Bonus

We do not pay a broker bonus on this business.

(AM) Premium Tax

There is no adjustment made for premium tax as the premium tax for this block was set at 0% as in order to mitigate the implementation of the tax on Managed Care Organizations.

(AN) Risk Adjustment Fee

Risk Adjustment is \$1.75 per member per year, or \$0.15 PMPM.

(AO) Reinsurer's Fee

We are not assessed the Reinsurer's Fee for 2017.

(AP) Exchange Fee

Based on current membership, 14% of our membership will be in the Exchange. Business in the Exchange is assessed an Exchange Fee of 4.0% of premium. This fee must be spread to the entire book, both on and off Exchange, as rates off the Exchange for Qualified Health Plans must match rates on the Exchange. That implies that all plans must incur at charge of 0.6% of premium per member, per month to reflect the assessment of the Exchange Fee.

(AQ) Insurer's Fee

We are not assessed the Insurer's Fee for 2017.

(AR) PCORI

These are fees set by the Federal Government. PCORI is \$0.18 PMPM in 2017.

(AS) Income Tax

Income tax is calculated as:

$$\begin{aligned} \text{Income Tax} &= (\text{After-Tax Profit} + \text{Insurer's Fee}) / (1 - \text{Corporate Tax Rate}) \times \text{Corporate Tax Rate} \\ &= (-15.0\% + 0.0\%) / (1 - 36.2\%) \times 36.2\% \\ &= -8.5\% \end{aligned}$$

Note the After-Tax Profit referenced is expressed as a % of Risk Adjusted Revenue (Premium Net of Risk Adjustment).

(AW) Adjusted Earned Premium

A renewal increase is calculated by comparing the proposed premium with an effective date of January 1, 2017 versus the adjusted earned premium one year prior or January 1, 2016.

The adjusted earned premium is the Individual PPO rates filed for CDI ACA plans with January 1, 2016 effective dates. It is computed by pulling a census of every non-grandfathered member in California Individual PPO as of the current month. Then membership is adjusted to reflect what we think the book distribution will be in 2017 (see L).

All members are rated as if they were on a January 2016 ACA plan using the rating formula:

Member Premium = Plan Specific Base Rate x Age Factor (with 3 child limit) x Area Factor

Book of Business Premium = Sum of all Member Premiums (subject to the 3 child limit)

The age factor of this population is determined by mapping every member to their ACA age factor, with the 3 child limit based on their age on January 1, 2017, the effective date of the rate filing.

The area factor of this population is determined by mapping every member to their ACA area factor based on their current zip code.

The average plan factor of this population is the plan actor of the ACA plan they are currently enrolled in.

We note that the average area and plan of current rates is consistent with the average area and plan in projected claims. The average age uses the same population but aging in claims uses the Milliman age factors (which do not advantage one cohort over another and reflect the true claims costs by age). While aging in premium uses the ACA age factors, the age factors mandated in premium setting.

Thus current premium and projected incurred claims use the same demographics basis and a comparison of Required Premium versus Adjusted Earned Premium is the Renewal Rate Increase, the annual increase from January 2016 to January 2017.

(BA) After Tax Margin/Profit

The 2017 after tax profit as a percent of billed premium is -18.6%. This is the profit reported in the URRT using the prescribed URRT methodology.

This results in an after-tax profit loss as a percent of risk adjusted revenue of -15.0% or pre-tax profit loss of -23.4%.

(BE) Requested Renewal Increase

The comparison between required premium (which is projected incurred claims plus administrative expenses plus profit) and current premium determines the renewal increase.

The renewal increase by plan is shown below. The overall average renewal is 23.0% for our PPO and EPO plans. This increase does not include the impact of demographic shifts.

We stress that the PPO rates are subject to continuing negotiations with the CDI.

Plan Name	Product	Exchange	Total
Health Net Platinum 90 PPO	PPO	Off	34.9%
Health Net Gold 80 PPO	PPO	Off	21.0%
Health Net Silver 70 PPO	PPO	Off	19.0%
Health Net Bronze 60 PPO	PPO	Off	16.6%
Health Net Minimum Coverage PPO	PPO	Off	23.2%
Health Net Platinum 90 EPO	EPO	On	23.7%
Health Net Gold 80 EPO	EPO	On	23.0%
Health Net Silver 70 EPO	EPO	On	24.0%
Health Net Bronze 60 EPO	EPO	On	22.0%
Health Net Minimum Coverage EPO	EPO	On	22.0%
Health Net Platinum 90 EPO	EPO	Off	23.7%
Health Net Gold 80 EPO	EPO	Off	23.0%
Health Net Silver 70 EPO	EPO	Off	24.0%
Health Net Bronze 60 EPO	EPO	Off	22.0%
Health Net Minimum Coverage EPO	EPO	Off	22.0%

Projected Loss Ratio

Using the Federally prescribed MLR methodology, the projected loss ratio is 110.6%.

	Federal MLR Calculation	Total	PMPM	% of Revenue
BG	Premium tax	\$0	\$0.00	0.0%
BH	Income Tax	(\$16,750,702)	(\$68.33)	-10.5%
BI	Exchange Fee	\$916,116	\$3.74	0.6%
BJ	Insurer's Fee	\$0	\$0.00	0.0%
BK	PCORI	\$44,328	\$0.18	0.0%
BL	Risk Adjustment Fee	\$36,770	\$0.15	0.0%
BM	Reinsurer's Fee	\$0	\$0.00	0.0%
BN	Allowed Deductible Expenses	(\$15,753,488)	(\$64.26)	-9.9%
BO	Quality Improvements	\$1,124,508	\$4.59	0.7%
BP	Federal MLR [= BF x (1 + BN) / (1 - BO)]			110.6%

Projected Index Rate

The Allowed Index Rate for the effective period is \$1,582.43. It is calculated by taking the Projected Incurred Claims (before ACA adjustments) and dividing it by the allowed modifiers to the Index Rate (i.e., Provider Network) and the Paid to Allowed Ratio.

	Index Rate Development	PMPM
BQ	Projected Incurred Claims (AE)	\$947.77
BR	Paid to Allowed Ratio	0.702
BS	Network Calibration	0.854
BT	Index Rate	\$1,582.43

(BQ) Projected Incurred Claims

Assumptions that went into Projected Incurred Claims are discussed in detail in the following sections of this memorandum:

Experience Period Premium and Claims
Projection Factors

(BR) Paid to Allowed Ratio

We expect the paid to allowed ratio of future business to be 0.702. This valuation was calculated based on the member weighted average of the AVs of our 2017 portfolio assuming the expected 2017 membership distribution. The AVs were determined based on the standalone AV calculator which is a paid to allowed calculator.

(BS) Network Calibration

To calculate the average network factor, we pulled the census of every non-grandfathered member in California Individual PPO/EPO as of January 2016 by plan network, then projected them to our expected 2017 membership distribution. The average network factor was calculated based on this population and using our proposed 2017 network factors.

Market Adjusted Index Rate

After developing the Index Rate, the Market Level Base Rate is calculated as:

BU	Index Rate PMPM	\$1,582.43
BV	Federal Reinsurance Program Adjustment	\$0.00
BW	Risk Adjustment	\$262.99
BX	Exchange User Fee Adjustment	\$6.24
BY	Market Adjusted Index Rate	\$1,325.68

(BV) Federal Reinsurance Program Adjustment

There is no Reinsurance Program Adjustment.

(BW) Risk Adjustment

This is the negative of (AG) Risk Adjustment Projection based on Edge Server divided by (BR) Paid to Allowed Ratio and (BS) Network Calibration.

(BX) Exchange User Fee Adjustment

This is (AP) Exchange Fee, divided by (BR) Paid to Allowed Ratio and (BS) Network Calibration.

(BY) Market Adjusted Index Rate

This is calculated as:

(BU) Index Rate PMPM – (BV) Federal Reinsurance Program Adjustment - (BW) Risk Adjustment + (BX) Exchange User Fee Adjustment.

It is the Rate where all allowable modifiers to the Index Rate: Actuarial Value, Provider Network, Plan Benefits in addition to EHB, Administrative Costs excluding exchange fees are 1.00. It is also the Rate where age factor and area factor are 1.00.

Plan Adjusted Index Rate

After developing the Market Adjusted Index Rate, the Plan Adjusted Index Rate is calculated using the plan specific factors allowed by 45 CFR Part 156, §156.80(d)(2).

BZ	Market Adjusted Index Rate	\$1,325.68
CA	Actuarial value and cost-sharing adjustment	varies by plan
CB	Provider network, delivery system and utilization management adjustment	varies by plan
CC	Adjustment for benefits in addition to the EHBs	1.000
CD	Impact of specific eligibility categories for the catastrophic plan	varies by plan
CE	Adjustment for distribution and administrative costs	0.816
CF	Plan Adjusted Index Rate	varies by plan

CG	Plan Adjusted Index Rate	varies by plan
CH	Age Curve Calibration	0.654
CI	Geographic Factor Calibration	1.172
CJ	Network Factor Calibration	1.000
CK	Calibrated Plan Adjusted Index Rate	varies by plan

(CA) Actuarial Value and Cost-Sharing Adjustment

The Actuarial Value and Cost-Sharing Adjustment is the product of the AV of the plan as computed by the Standalone calculator, the Induced Demand Factor, and the Normalization Adjustment.

There are no changes to the Induced Demand factor from 2016 to 2017. The normalization factor changed due to the changes in demographic mix.

(CB) Provider network, delivery system and utilization management adjustment

This varies by network and rating region, and represents the cost relativity of the PPO and EPO networks, by region:

Product	Rating Region	Current	Proposed	Change
		Network Factors	Network Factors	
PPO	ALL	1.000	0.893	-10.7%
EPO	2	0.768	0.749	-2.5%
EPO	4	0.800	0.780	-2.5%
EPO	5	0.761	0.742	-2.5%
EPO	7	0.787	0.767	-2.5%
EPO	8	0.834	0.813	-2.5%
EPO	9	0.752	0.734	-2.5%
EPO	10	0.819	0.799	-2.5%
EPO	14	0.781	0.762	-2.5%
EPO	15	0.737	0.610	-17.3%
EPO	16	-	-	-2.5%
EPO	17	0.777	0.530	-31.7%
EPO	18	0.722	0.539	-2.5%
EPO	19	0.719	0.701	-2.5%

As a result of CCIIO guidance regarding providing multiple networks as part of the same risk pool, we are showing our EPO products by region each as a separate network adjustment factor.

(CC) Adjustment for benefits in addition to the EHBs

There are no benefits in addition to the EHBs.

(CD) Impact of specific eligibility categories for the catastrophic plan

Catastrophic plans are their own single risk pool and this adjustment factor is meant to adjust the catastrophic rates so that they reflect their own experience. Our 2016 catastrophic factors were 0.815 for PPO plans and 0.788 for EPO plans and remain unchanged from the previous rate filing.

(CE) Adjustment for distribution and administrative costs

This is calculated as:

$$1 + \frac{\text{Total Administrative Costs} + \text{Total Taxes \& Fees} - \text{Exchange User Fees} + \text{Profit}}{\text{Projected Incurred Claims w/ ACA Adjustments} + \text{Exchange User Fees}}$$

The resulting adjustment is 0.816.

(CH) Age Curve Calibration

This is the inverse of the expected average age factor using the ACA age factors and the 3 child limit.

The age curve factor was calculated by pulling a census of every non-grandfathered member in California Individual PPO as of January 2016, then projecting them to the expected 2017 membership. The ACA age factor is based on the member's age in years (rounded down) as of January 1, 2017 - the age implicit in (AW) Adjusted Earned Premium. The 3 child limit was applied so that dependent children age 0-20 were not counted if they were the 4th or more child in a family contract. The result of this analysis demonstrated that the average age factor for this block is 1.529. Thus to calibrate the plan adjusted index rate so that the implied age factor is 1.00, we multiply by the inverse of the average age factor of the block. The inverse of 1.529 is 0.654.

(CI) Geographic Factor Calibration

This is the inverse of the weighted average of the proposed area factors, weighted by projected 2017 ACA membership. The average area factor was calculated based on this population and using our proposed 2017 area factors. The calculated value is 0.816.

Note we adjust the calibration factor by 0.956 in order to account for average differences between the renewal produced by the “Rating factors” tab and the renewal calculated by the Rate Development. Without the Geographic Calibration Adjustment found in the Rating’s Factor tab, the result this factor would be $1.226 = (1/0.816)$ rather than 1.172.

AV Metal Values

All AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were entirely based on the AV Calculator.

AV Pricing Values

All plans filed are standard plans developed by Covered California. The AVs below are calculated by Covered California and we relied on them without comment.

Rating Factors

We do not rate for tobacco. Per member premium is calculated as:

Plan Specific Base Rate
x Age Factor with 3 child limit
x Area Factor

Age Factors and Tier Factors:

We use ACA age factors with the 3 child limit.

Area Factors:

Area factors reflect the regional differences in provider contracting and claims cost.

Regional differences between plan premiums is the product of the Area Factor x Network factor.

Rating Region	Current		Proposed		Change	
	Area x Network		Area x Network		Area x Network	
	PPO	EPO	PPO	EPO	PPO	EPO
2	1.234	0.948	1.102	0.924	-10.7%	-2.5%
4	1.278	1.023	1.141	0.997	-10.7%	-2.5%
5	1.210	0.921	1.081	0.898	-10.7%	-2.5%
7	1.158	0.911	1.034	0.888	-10.7%	-2.5%
8	1.320	1.100	1.178	1.073	-10.7%	-2.5%
9	1.276	0.960	1.139	0.936	-10.7%	-2.5%
10	1.146	0.939	1.023	0.916	-10.7%	-2.5%
14	0.943	0.737	0.842	0.718	-10.7%	-2.5%
15	0.915	0.674	0.963	0.658	5.2%	-2.5%
16	1.287	-	1.149	-	-10.7%	-
17	0.983	0.764	1.254	0.744	27.5%	-2.5%
18	1.008	0.729	1.177	0.710	16.7%	-2.5%
19	1.024	0.736	0.914	0.717	-10.7%	-2.5%

We increased the area factor for PPO only regions 15,17, and 18 to reflect those region's risk-adjusted costs.

Unified Rate Review Template

Section I: Experience period data:

Allowed and Incurred Claims Incurred During the Experience Period:

In order to supply the requested information for the URRT we have included all non-grandfathered California Individual business. Therefore the Single Risk Pool is comprised of our Non-Grandfathered Individual PPO and EPO business.

California Individual PPO incurred claims were pulled directly from Health Net's internal claims system. A completion factor of was applied to account for claims incurred but not reported.

Section II: Allowed Claims, PMPM basis

Other – This is the product of the following factors below. See above Projection Factors (I) – (AA), for further details regarding the quantitative development of these items.

	Claims development:	Total
I	Claims without OON Substance Abuse Claims	0.573
J	OON Substance Abuse Cost Adjustment ----80% reduction	1.149
K	Selection Exposure to Substance Abuse	1.053
M	Proposal B Increase OON Cost Share Amounts - Deductible	0.959
	Proposal E: Remove First Health Travel Benefit for IFP and remove all out of state OON benefits/ coverage, with the exception of ER for IFP	0.991
	Proposal F: Exclude OON non-certified services (remove pre-cert penalties)	1.000
	Proposal G: Limit as Many Services as Possible to INN only (Expand Non-Coverage of Certain Services OON)	0.999
	Increase Certification Requirements for Services/ PA Required for Payment	1.000
	Other 2017 Initiatives	1.000
Q	CSR Receivables	0.997
R	Release of Pent-Up Demand	1.000
S	2016 Carryover Initiatives	0.990
U	Age Adjustment (Relative to Current Metal/Region Mix)	0.956
V	Area Adjustment	1.000
X	Benefit Adjustments	1.000
Y	Plan benefits in addition to EHB	1.000
Z	Claims Adjustment: Hepatitis C	0.997
AA	Adjustment for Grace Period	1.000
	<i>Network Calibration</i>	1.171
	<i>Equalize Paid to Allowed</i>	1.027
	<i>Total</i>	0.746

Note: Equalize Paid to Allowed is equal to the ratio of the Experience AV to Projected AV w/ Plan Adjustment. It represents benefit / leveraging changes due to the change in plan benefits as calculated by the AV calculator. It is calculated as the

$$\text{Plan Adjustment (V)} \times \text{Experience AV} / \text{Projected AV} = 1.008 \times 0.715 / 0.702 = 1.027$$

Administrative Expense Load – This is the sum of the following factors below. See above Non-Benefit Expenses and Profit & Risk (AI) – (AK), for further details regarding the quantitative development of these items.

	Admin Development	% of Revenue
AI	Administrative Expenses	5.4%
AJ	Commissions	1.2%
AK	Broker Bonus	0.0%
	<i>Total</i>	6.6%

Profit – Profit in the rate development is -18.6%. See above Non-Benefit Expenses and Profit & Risk (BA) for further details regarding the quantitative development of this item. Please note, due to restrictions in the URRT we are including Taxes and Fees in the Profit section. This is because we are not permitted to validate the URRT with negative values in the Taxes and Fees section. Taxes and Fees total -9.9%, described below. Therefore we zero out the Taxes and Fees and Profit becomes -28.5% = -18.6% + -9.9%.

Taxes and Fees – This is the sum of the following items below. See above Non-Benefit Expenses and Profit & Risk (AM)-(AR), for further details regarding the quantitative development of these items. Please note that the Taxes and Fees calculated below are included in the Administrative Load section, above, because the URRT does not allow for a negative value in the Taxes and Fees field.

	Taxes and Fees	% of Revenue
AM	Premium tax	0.0%
AS	Income Tax	-10.5%
AP	Exchange Fee	0.6%
AQ	Insurer's Fee	0.0%
AR	PCORI	0.0%
	<i>Total</i>	-9.9%

Credibility Manual Rate Development

Health Net did not employ the use of external claims experience.

Credibility of Experience

Our California Individual PPO non-grandfathered experience data includes over 36,700 lives and we considered it fully credible for the purpose of premium setting.

Paid to Allowed Ratio

We expect the paid to allowed ratio of future business to be 0.702. This valuation was calculated as the average of the AVs of our 2017 portfolio based on the census of our projected 2017 membership. The AVs were determined based on the standalone AV calculator which is a paid to allowed calculator.

Membership Projections

We project 20,428 members or 245,133 member months on 2017 Individual ACA PPO and EPO plans in California.

Reliance

Health Net did not rely on any information or underlying assumptions provided by another individual.

Actuarial Certification

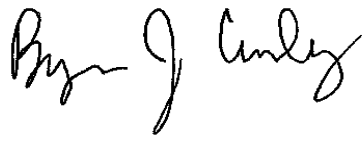

I, Bryan Curley, am an actuary for Health Net, Inc. and a member of the American Academy of Actuaries, in good standing.

Because the rates are deficient (as discussed in the memo), I **cannot** certify the following statement:

“The projected index rate is reasonable in relation to the benefits provided and the population anticipated to be covered, and is not excessive nor deficient.”

However, I hereby certify the following statements:

1. The projected index rate, in conjunction with other ACA financial provisions, is in compliance with all applicable State and Federal Statutes and Regulations (45 CFR 156.80(d)(1)) and was developed in compliance with the applicable Actuarial Standards of Practice.
2. The index rate and only the allowable modifiers as described in 45 CFR 156.80(d)(1) and 45 CFR 156.80(d)(2) were used to generate plan level rates.
3. The percent of total health care costs that represents essential health benefits included in Worksheet 2, Section IV were calculated in accordance with actuarial standards of practice.
4. The AV Metal Values included in Worksheet 2 of the Part I Unified Rate Review Template were distributed by Covered California. As directed by Covered California, we are submitting these plans based on Covered California's calculations.
5. Calculations are based on generally accepted actuarial rating principles for rating blocks of business.
6. The Part I Unified Rate Review Template does not demonstrate the process used by the Health Net to develop the rates. Rather it represents information required by Federal regulation to be provided in support of the review of rate increases, for certification of qualified health plans for federally facilitated exchanges and for certification that the Index Rate is developed in accordance with Federal regulation and used consistently and only adjusted by the allowable modifiers.
7. Note that rates were developed assuming the funding of Advanced Premium Tax Credits (APTCs) and Cost Sharing Reduction Subsidies (CSRs) remains intact. The loss of such funding will impact whether rates are sufficient to cover incurred costs.

Development of the Index Rate

45 CFR Part 156, §156.80 sets the methodology to determine the Index Rate:

(d) Index rate —(1) In general. Each plan year or policy year, as applicable, a health insurance issuer must establish an index rate for a state market described in paragraphs (a) through (c) of this section based on the total combined claims costs for providing essential health benefits within the single risk pool of that state market. The index rate must be adjusted on a market-wide basis based on the total expected market-wide payments and charges under the risk adjustment and reinsurance programs in the state and Exchange user fees. The premium rate for all of the health insurance issuer's plans in the relevant state market must use the applicable market-wide adjusted index rate, subject only to the plan-level adjustments permitted in paragraph (d)(2) of this section.

Experience Period (from X to Y)	1/1/2015	12/31/2015

California Rate Filing Form
For Individual and Small Group Health Insurance
Rate Filings for Existing Products, Version 2
(do not use this form for initial filings for new product rates)

The rate filing submission should include:

- 1) This form
- 2) A California Rate Filing Spreadsheet
- 3) An actuarial certification
- 4) A spreadsheet with rate information responsive to Questions 10 & 15, below
- 5) A California Plain-Language Filing Form
- 6) A California Plain-Language Spreadsheet

1) Company Name:

2) Number of policy forms covered by the filing: _____

3) Policy form numbers covered by the filing:
List all of the policy form numbers covered by this filing in column "A" of the "California Rate Filing Spreadsheet". List all product names associated with each policy form number in column "B."

4) Product types covered by the filing. Selected from the following:

	HMO (Health Maintenance Organization)
	PPO (Preferred Provider Organization)
	EPO (Exclusive Provider Organization)
	POS (Point of Service)
	FFS (Fee for Service)
	Other (describe) _____

5) Segment type. One of the following:

<input type="checkbox"/>	Small Group (2-50 employees)
<input type="checkbox"/>	Individual

Note: Large Group, Small Group, and Individual filings should not be combined within a single filing.

6) Plan/Insurer Type. One of the following: for-profit company, not-for-profit company

<input type="checkbox"/>	For-profit company
<input type="checkbox"/>	Not-for-profit company

7) Whether the products are open or closed. List each open or closed product by policy form number.

For each policy form number, indicate in column "C" of the California Rate Filing Spreadsheet whether the products are open or closed.

If all policy forms listed are open, check here:

If all products listed are closed, check here:

If only some policy forms listed are closed, check here:

8) Enrollment:

In column "D" of the California Rate Filing Spreadsheet, state the number of lives, including dependents, covered by each product as of the end of the latest month for which the data has been compiled.

9) Insured months in each policy form

In column "E" of the California Rate Filing Spreadsheet, state the number of insured (or member) months for the experience period on which the rates were based. (Does not apply to rates for new products.)

10) Annual Rate

In a separate spreadsheet, for each product included in the filing, show the current and proposed annual premium rates for each rating cell.

11) Total earned premium

For each policy form list:

In column "F" of the California Rate Filing Spreadsheet, state the experience period on which rates are based,

In column "G" of the California Rate Filing Spreadsheet, state the period for which rates are to be effective,

In column "H" of the California Rate Filing Spreadsheet, state the total premium earned for the experience period on which the rates are based.

- 12) In column "I" of the California Rate Filing Spreadsheet, state the total dollar amount of incurred claims in each policy form for the experience period on which the rates are based.

If helpful to understanding the basis for the filed rate increases, the insurer may, but is not required to, disaggregate incurred claim data into the aggregate benefit categories listed in item 18 below.

- 13) In column "J" of the CA Rate Filing Spreadsheet, state the average rate increase initially requested

The weighted average of the proposed rate increases included in the filing, weighting the increases by the number of covered lives for each product (per item 8, above). Rates for new products are not included in this calculation, as they have a weight of zero. (Does not apply to rates for new products.)

- 14) Review category: One of the following:

	Initial Filing for New Product
	Filing for Existing Product
	Resubmission

Resubmissions should be submitted through SERFF under the same state filing number and SERFF tracking number assigned to the original submission of this filing. Do not submit resubmissions as a new filing.

- 15) Average rate of increase

In those instances in which there is a revision to the rates requested after initial submission, the revision should be submitted as an amendment to the original submission of this filing under the rate/rule form tab. Submit a revised California Rate Filing Form, a revised spreadsheet responsive to Question 10, and a revised California Rate Filing Spreadsheet, completing columns A, B, and J. Also, in the case of a resubmission, update the information under the "company rate information" field under the "Rate/Rule Schedule" tab in SERFF. The average rate of increase is a weighted average, calculated as in item 13, above.

- 16) Effective date of rate increase: _____

The earliest anticipated date that the proposed rate increase, or new product rate, will take effect for a policyholder.

- 17) Number of policyholders or insureds affected by each policy form

This information was provided in item 8, above, and need not be repeated.

- 18) Overall medical trend factor and trend factors by aggregate benefit category:

Overall Medical Trend Factor

“Overall” means the weighted average of trend factors used to determine rate increases included in the filing, weighting the factor for each aggregate benefit category by the amount of projected medical costs attributable to that category.

--

Medical Trend Factor by Aggregate Benefit Category

The aggregate benefit categories are each of the following – hospital inpatient, hospital outpatient (including emergency room), physician and other professional services, prescription drugs from pharmacies, laboratory services (other than hospital inpatient), radiology services (other than hospital inpatient), other (describe).

Hospital Inpatient	
Hospital Outpatient (including ER)	
Physician/other professional services	
Prescription Drug	
Laboratory (other than inpatient)	
Radiology (other than inpatient)	
Other (describe)	

Optional Medical Trend Factor by Aggregate Benefit Category by Geographic Region

The insurer may, but is not required to, aggregate additional data in major geographic regions of the state. If the insurer chooses to so aggregate, the major geographic regions of the state are: Northern California (consisting of Monterey, Kings, Tulare, and Inyo counties, and all counties to the north), and Southern California (consisting of San Luis Obispo, Kern, and San Bernardino counties, and all counties to the south).

	North	South
Hospital Inpatient		
Hospital Outpatient (including ER)		
Physician/other professional services		
Prescription Drug		
Laboratory (other than inpatient)		
Radiology (other than inpatient)		
Other (describe)		

19) Projected medical trend

Use the same aggregate benefit categories used in item 18 –hospital inpatient, hospital outpatient (including emergency room), physician and other professional services, prescription drugs from pharmacies, laboratory services (other than hospital inpatient), radiology services (other than Hospital inpatient), other (describe). Furthermore, within each aggregate category quantify the sources of trend, i.e. use of services, price inflation, and fees and risk.

Projected Medical Trend by Aggregate Benefit Category

Hospital Inpatient	Trend attributable to use of services:
	Trend attributable to price inflation:
	Trend attributable to fees and risk:
Hospital Outpatient (including ER)	Trend attributable to use of services:
	Trend attributable to price inflation:
	Trend attributable to fees and risk:
Physician/other professional services	Trend attributable to use of services:
	Trend attributable to price inflation:
	Trend attributable to fees and risk:

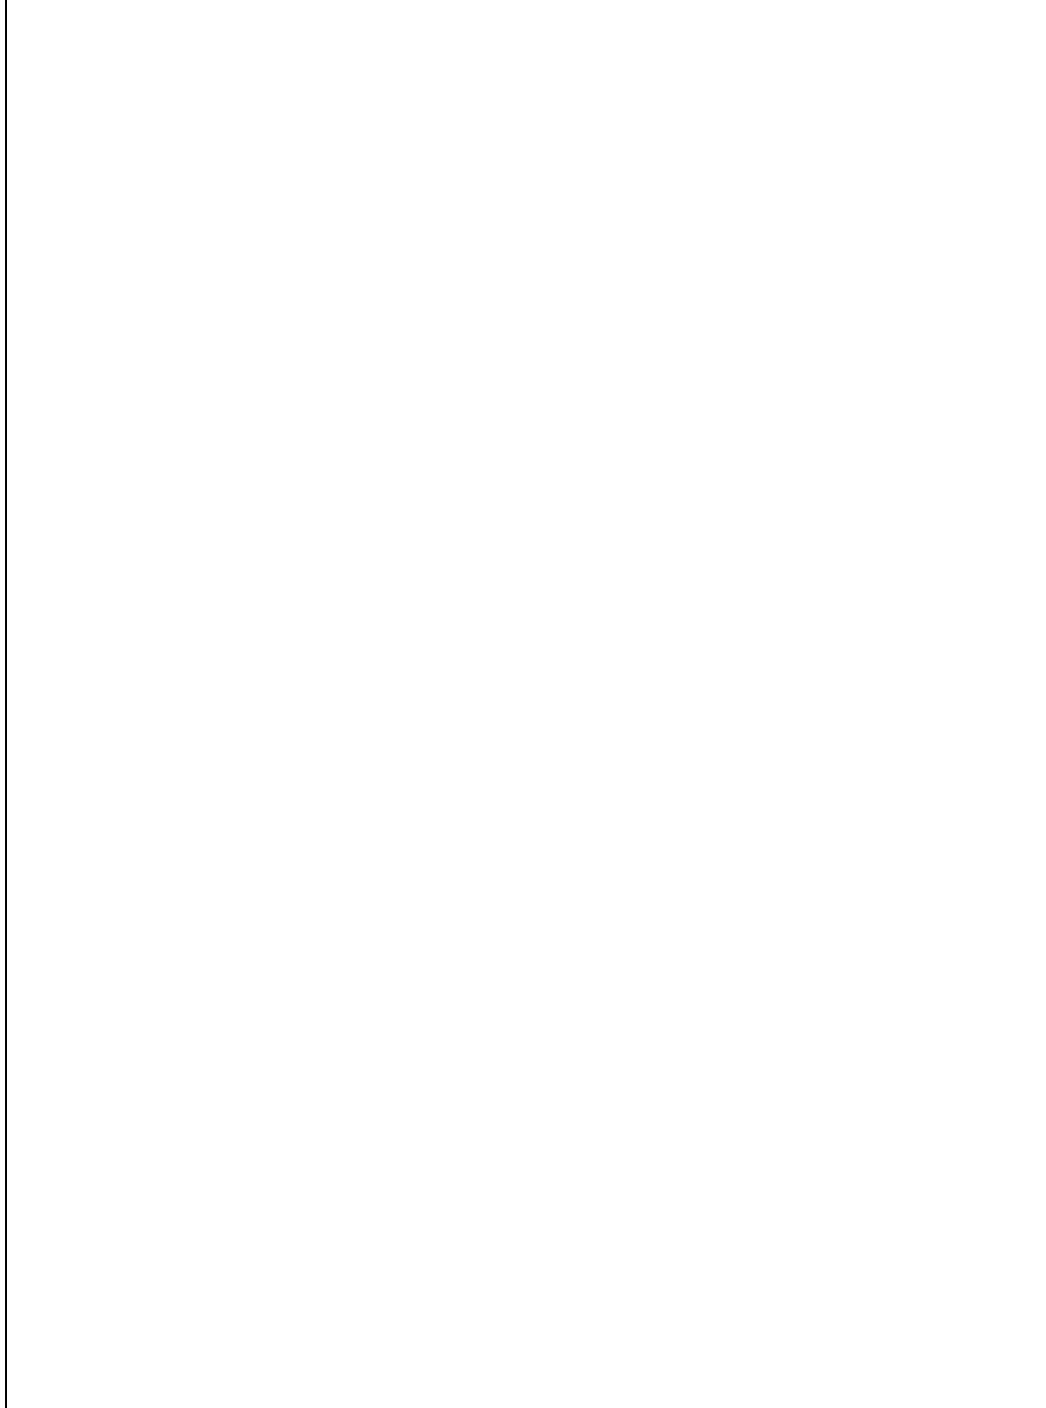

Prescription Drug	Trend attributable to use of services:
	Trend attributable to price inflation:
	Trend attributable to fees and risk:
Laboratory (other than inpatient)	Trend attributable to use of services:
	Trend attributable to price inflation:
	Trend attributable to fees and risk:
Radiology (other than inpatient)	Trend attributable to use of services:
	Trend attributable to price inflation:
	Trend attributable to fees and risk:
Other (describe)	

20) Comparison of claims cost and rate of changes over time

For each proposed rate increase, provide the projected annualized incurred claims cost per insured for the period covered by the proposed rate, the historical incurred claims cost per insured for the most recent 12 months of the experience period on which the rates were based, and the historical incurred claims cost per insured for the next two most recent 12 month periods. Also, compare the rate of change of claims costs over all of the projected and historical periods for which information is provided. Show all claim costs according to aggregate benefit category.

--

- 21) Describe any changes in enrollee/insured cost-sharing, compared to the prior year, associated with the submitted rate filing, including both the absolute amount of the change, and the percentage change, and quantify the impact of each change on each of the rates included in the filing. Also describe any changes in benefits exempted from cost-sharing, as well as any newly-imposed cost-sharing.

- 22) Describe any changes in enrollee/insured benefits, including but not limited to hospital inpatient, hospital outpatient (including emergency services), physician and other professional services, laboratory services, radiology services, and other benefits (describe), compared to the prior year, associated with the submitted rate filing, and quantify the impact of each change on each of the rates included in the filing.

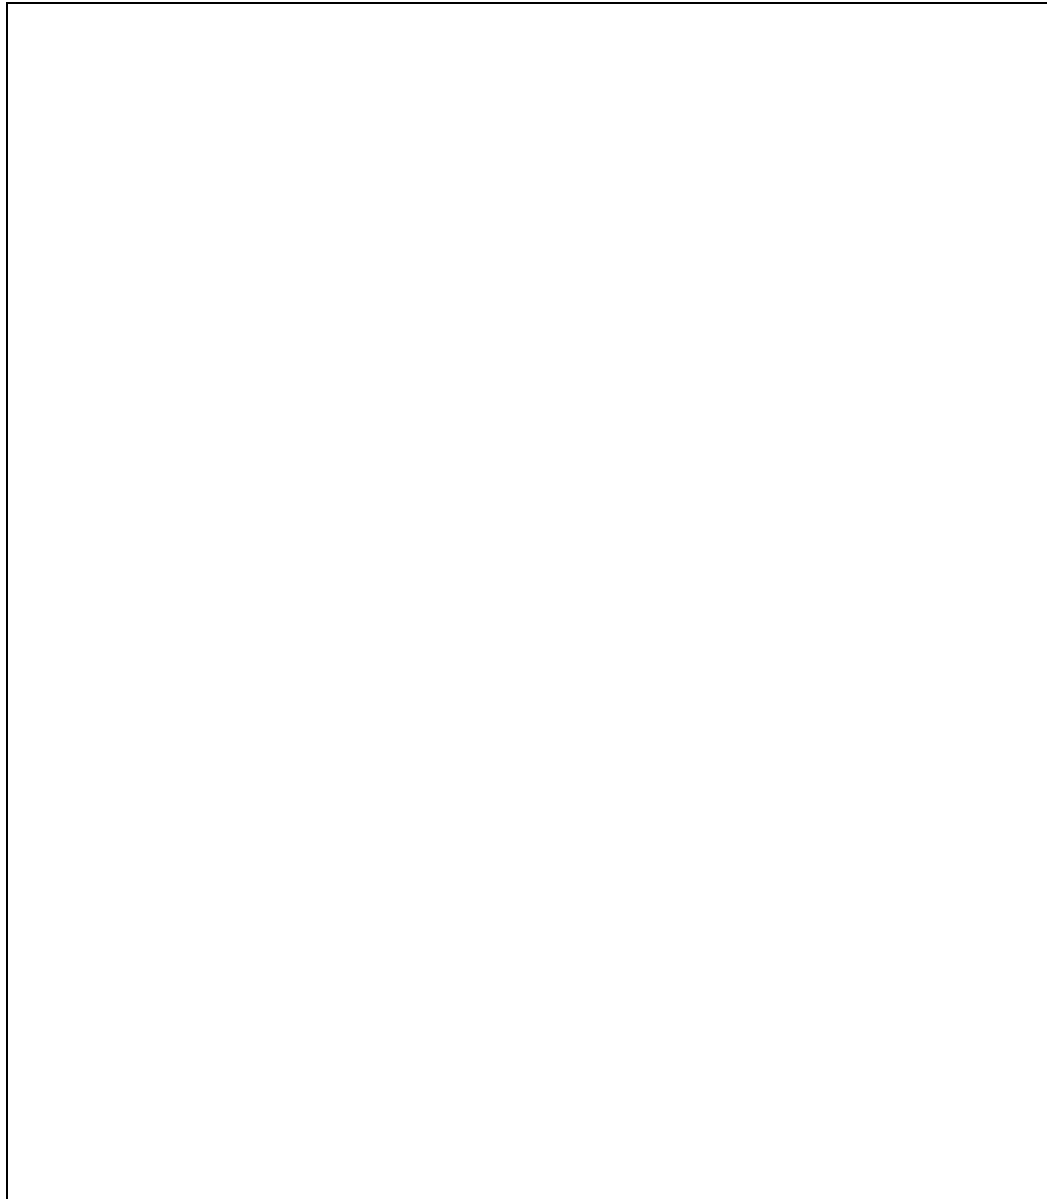

--

- 23) Submit the required actuarial certification, described in Guidance 1163:2, under the "Supporting Documentation" tab in SERFF.

	Submitted
--	-----------

24) Changes in administrative costs

Administrative costs are the costs defined in Sections 158.150, 158.151, 158.160, and 158.161 of 45 Code of Federal Regulations Subtitle A, Subchapter B, in the interim final rule issued by the Department of Health and Human Services on December 1, 2010 at 75 Federal Register 74924-74926. Using those definitions, describe the administrative costs for the policy forms included in this filing for the year prior to the requested rate increase, then also describe any changes in administrative costs, compared to the prior year, associated with the submitted rate filing, and quantify the impact of each change on each of the rates included in the filing. Changes should be shown separately for the costs defined by each of the sections of Code of Federal Regulations listed above in this item. (Does not apply to rates for new products.)

26) Comments. Place any needed comments here.

A large, empty rectangular box with a thin black border, intended for providing comments. It occupies the central portion of the page.

Health Net Life Insurance Company
 IFP PPO/EPO Rate Filing Effective January 1, 2017
 Development of Rate Change or Base Rate

Development of the Index Rate

45 CFR Part 156, §156.80 sets the methodology to determine the Index Rate:

(d) Index rate —(1) In general. Each plan year or policy year, as applicable, a health insurance issuer must establish an index rate for a state market described in paragraphs (a) through (c) of this section based on the total combined claims costs for providing essential health benefits within the single risk pool of that state market. The index rate must be adjusted on a market-wide basis based on the total expected market-wide payments and charges under the risk adjustment and reinsurance programs in the state and Exchange user fees. The premium rate for all of the health insurance issuer's plans in the relevant state market must use the applicable market-wide adjusted index rate, subject only to the plan-level adjustments permitted in paragraph (d)(2) of this section.

Experience Period (from X to Y)	1/1/2015	12/31/2015
Paid Through		1/31/2015
Rating Period (from X to Y)	1/1/2017	12/31/2017

	Experience:	Total	PMPM	% of Risk Adj Revenue	% of Revenue
A	Experience Period Member Months	440,430	36,703		
B	Expected Member Months in the Rating Period	245,133	20,428		
C	Experience Period Premium	\$189,018,536	\$429.17		
D	System Experience Period Completed Incurred Claims	\$473,970,047	\$1,076.15		
E	Off System Adjustments to Claims (Pediatric Vision+Dental)	\$2,096,664	\$4.76		
F	Experience Period Completed Incurred Claims	\$476,066,711	\$1,080.91		

	Claims development:	Total	PMPM	% of Risk Adj Revenue	% of Revenue
H	Experience Incurred Claims (D)	\$473,970,047	\$1,080.91		
I	Claims without OON Substance Abuse Claims		\$619.44		
J	OON Substance Abuse Cost Adjustment ----80% reduction	0.658	\$711.73		
K	Selection Exposure to Substance Abuse	1.053	\$749.27		
L	Morbidity - Reweighting Claims to Current	1.207	\$903.99		
	Morbidity - Reweighting Claims to Current (adjustment to EPO for size)	0.965	\$872.20		
M	Proposal B Increase OON Cost Share Amounts - Deductible	0.994	\$867.00		
N	Proposal B Increase OON Cost Share Amounts - MOOP	1.000	\$866.60		
	Proposal E: Remove First Health Travel Benefit for IFP and remove all out of state OON benefits/ coverage, with the exception of ER for IFP	0.992	\$859.48		
	Proposal F: Exclude OON non-certified services (remove pre-cert penalties)	1.000	\$859.48		
	Proposal G: Limit as Many Services as Possible to INN only (Expand Non-Coverage of Certain Services OON)	0.999	\$858.77		
	Increase Certification Requirements for Services/ PA Required for Payment	1.000	\$858.77		
	Other 2017 Initiatives	1.000	\$858.77		
O	Morbidity adjustment - Healthy lives entering the market (in Risk Adjustment)	1.000	\$858.77		
P	Morbidity adjustment - Guaranteed Issue for PPO	1.000	\$858.77		
Q	CSR Receivables	0.997	\$856.53		
R	Release of Pent-Up Demand	1.000	\$856.53		
S	2016 Carryover Initiatives	0.990	\$848.32		
U	Age Adjustment (Relative to Current Metal/Region Mix)	0.956	\$810.86		
V	Area Adjustment	1.000	\$811.08		
W	Plan Adjustment	1.007	\$817.12		
X	Benefit Adjustments	1.000	\$817.12		
Y	Plan benefits in addition to EHB	1.000	\$817.12		
Z	Claims Adjustment: Hepatitis C	0.997	\$814.74		
AA	Adjustment for Grace Period	1.000	\$814.74		
AB	Pricing Trend	7.85%	7.85%		
AC	Months of Trend	24	24		
AD	Trend Factor	1.163	1.163		
AE	Projected Incurred Claims	\$232,329,839	\$947.77		

	Risk Adjustment/Reinsurance Recoveries	Total	PMPM	% of Risk Adj Revenue	% of Revenue

BK	PCORI	\$44,328	\$0.18		0.0%
BL	Risk Adjustment Fee	\$36,770	\$0.15		0.0%
BM	Reinsurer's Fee	\$0	\$0.00		0.0%
BN	Allowed Deductible Expenses	(\$15,753,488)	(\$64.26)		-9.9%
BO	Quality Improvements	\$1,124,508	\$4.59		0.7%
	Target GAAP Medical Loss Ratio				117.6%
BP	Federal MLR [= BF x (1 + BN) / (1 - BO)]				110.6%

	Index Rate Development	Total	PMPM	% of Risk Adj Revenue	% of Revenue
BQ	Projected Incurred Claims (AE)		\$947.77		
BR	Paid to Allowed Ratio		0.702		
BS	Network Calibration		0.854		
BT	Index Rate		\$1,582.43		

Development of the Market Adjusted Index Rate

BU	Index Rate PMPM	\$1,582.43
BV	Federal Reinsurance Program Adjustment	\$0.00
BW	Risk Adjustment	\$262.99
BX	Exchange User Fee Adjustment	\$6.24
BY	Market Adjusted Index Rate	\$1,325.68

Development of Plan Adjusted Index Rate

Allowable modifiers to the Index Rate are defined in 45 CFR Part 156, §156.80(d)(2)

BZ	Market Adjusted Index Rate	\$1,325.68
CA	Actuarial value and cost-sharing adjustment	varies by plan
CB	Provider network, delivery system and utilization management adjustment	varies by plan
CC	Adjustment for benefits in addition to the EHBs	1.000
CD	Impact of specific eligibility categories for the catastrophic plan	varies by plan
CE	Adjustment for distribution and administrative costs	0.816
CF	Plan Adjusted Index Rate	varies by plan

CG	Plan Adjusted Index Rate	varies by plan
CH	Age Curve Calibration	0.654
CI	Geographic Factor Calibration	1.172
CJ	Network Factor Calibration	1.000
CK	Calibrated Plan Adjusted Index Rate	varies by plan
